

Academic Program Assessment Report

Assessment is a term commonly used to encompass the process of gathering and using evidence to guide improvements.

SACSCOC requires that an institution "identifies expected outcomes, assesses the extent to which it achieves these outcomes, and provides evidence of seeking improvement based on analysis of the results".

Be sure to SAVE your progress as you work!

Program Goal

Goal

Goal 1

Program Goals are broad and overarching statements about the skills, knowledge, and dispositions students are expected to gain by the end of their course of study (big picture). They support the Institution's Mission/Goals.

Program Goal

Students will demonstrate knowledge and understanding of concepts, processes, and institutions in the field of criminology.

Pillar of Success Supported

High-Demand, Market-Driven Programs

Outcomes

Outcome 1

Outcomes are specific, **measurable** statements that reflect the broader goals.

Academic Programs are required to develop **Student Learning Outcomes**, which describe knowledge, skills, and values that students are expected to gain as a result of their educational experiences.

Academic Programs may also develop **Operational Outcomes**, which describe the level of performance of an operational aspect of a program or office (ex. graduation rates, retention, employment data).

Most goals have at least two outcomes measured.

What type of Outcome would you like to add?

Student Learning Outcome

Enter Outcome

Percent of question on the ETS Criminology Major Field Test (MFT) on which the percentage of students answering correctly was as high or higher than the national average of students answering correctly.

Timeframe for this Outcome

Fall 2021 and Spring 2022 in AY 2020-2021

Performance Target for "Met"

The percentage of students answering the questions correctly was high or higher than the national average of 70% or more of the questions.

Performance Target for "Partially Met"

The percentage of students answering the questions correctly was lower than 70% of the national average but higher than 60% of the national average of the questions.

Performance Target for "Not Met"

The percentage of students answering the questions correctly lower than 60% of the national average.

Comments/Narrative

This academic year 21-22 there was an increase in students results on the MFT (Criminal Justice) examination from the previous year. However, there are still students not meeting the 70% goal. We will be strengthening these results by incorporating information found in Corrections, Community Policing, Constitutional Law, and Introduction to Law courses in other courses students are required to take (core courses) and several elective courses. Incorporating some of this information in other courses will help address the issues related to transfer students and students who have not taken these courses.

This data was a summary of four semesters of itemized questions on the MFT (Criminal Justice). It took

all four semesters to have enough data for an itemized analysis. There are several issues of concern this data highlighted. The Criminology curriculum gives students several options of courses to take at the 200 and 300 levels. These options are all very topic-specific, so a student could never have a course dealing with Corrections, Community Policing, Constitutional Law, and Introduction to Law. Yet, there are numerous questions on the MFT directly related to these courses. A second key issue is the breadth of the Criminology curriculum versus a Criminal Justice curriculum. The Criminology degree includes political science and sociology courses to address the wide scope of career paths. A third issue dealing with Spring 2019, 5 students had a minimum of 24 transfer hours applied to their Criminology degree.

Academic year 2020-2021 saw a decrease in all seven areas being examined on the Major Field Test (MFT) in Criminal Justice. Many of the questions from AY went unanswered due to the pandemic making major changes in teaching modalities. From AY 2019-2020: This poses several questions: is the use of adjunct faculty for 100 and 200-level criminology courses providing the information needed to scaffold knowledge for further courses? Are the students in the upper level courses being provided more in-depth knowledge to expand their knowledge?

AY 2020-2021 using the above concerns along with the following: What impact did the pandemic and changes in teaching modalities have on the Spring 2021 students? 65% of students taking the MFT in both Fall 2020 and Spring 2021 met the goal. However, there was a drop in Spring 2021 - these students experienced major changes in their final year.

Proposed adjustments to be made in AY 2020-2021: 1). The development of standardized course material (to include syllabus, course schedule, examinations, and assignments) in 100 and 200-level courses. 2). Incorporate theory in every course, beginning in the 100-level course. 3). Develop an examination to be given in the beginning of 300-level criminology courses to test memory of 100 and 200-level material. 3). Continue providing reading quizzes on material in courses. 4). Incorporate identification of research methodology and statistics from journal articles into courses beginning at the 200-level.

AY 2020-2021 one of the proposed changes has been accomplished: 3). Continue providing reading quizzes on material in courses.

Adjustments proposed for 2021-2022: Begin making the changes proposed in AY 2019-2020 with the hiring of another full-time faculty member. 1) Continue standardizing 100 and 200-level courses with textbooks, syllabi, assignments, and rubrics - for both on-line and face-to-face courses. 2). Incorporate quizzes focusing on material from 100 and 200-level courses in all 300-level courses. 4). Incorporate identification of research methodology and statistics from journal articles into courses beginning at the 200-level.

Resources Needed to Meet/Sustain Results

The "Item Information Report" on the MFT - Criminology from the ETS, which can be purchased for \$350.00 per year is required to increase understanding of areas needing more reinforcement. It is very important to continue purchasing this report. This report assisted in identifying the areas in the curriculum which needed to be strengthened.

Explanation of How Resources Will Be Used

The results of the "Item Information Report" on the MFT - Criminology, will be used to strengthen and reinforce areas of content where students are falling below the national 70%.

The results of the "Item Information Report" on the MFT - Criminal Justice, will be broken down into the testing categories for the purpose of identification of information in which the students had difficulty with on the exam. By knowing the categories and information the students did not answer correctly on the

exam will allow the information to be strengthened throughout the curriculum, instead of only in a few courses.

Outcome 2

Outcomes are specific, **measurable** statements that reflect the broader goals.

Academic Programs are required to develop **Student Learning Outcomes**, which describe knowledge, skills, and values that students are expected to gain as a result of their educational experiences.

Academic Programs may also develop **Operational Outcomes**, which describe the level of performance of an operational aspect of a program or office (ex. graduation rates, retention, employment data).

Most goals have at least two outcomes measured.

What type of Outcome would you like to add?

Student Learning Outcome

Enter Outcome

The percentage of students will correctly answer 70% or higher on a series of multiple-choice quizzes given to students in Crim.309. These multiple-choice quizzes will question students on material from Criminology 100 and 200 level courses and material from Political Science 300-level courses required for the Criminology degree. chapter reading material.

Timeframe for this Outcome

AY 2021-2022

Performance Target for "Met"

Students who correctly answered all combined quiz total scores of 70% or higher.

Performance Target for "Partially Met"

Students who correctly answered all combined quiz total scores less than 70% but higher than 60%.

Performance Target for "Not Met"

Students who correctly answered all combined quiz total scores below 60%.

Assessment Measure Used

Three on-line exams in Crim.210
One on-line quiz in Crim.309

Frequency of Assessment

Crim.210 was taught during the Fall semester.

Crim.309 is only offered during the Fall semester.
This is the last semester for this course to be taught.

Data Collected for this Timeframe (Results)

AY 21-22:
Crim.210
Met - 99%
Partially Met - 0%
Did not meet - 1% - one student only completed one exam

Score (Met=3, Partially Met=2, Not Met=1)

3

Crim.309

Met - 81%
Partially Met - 7%
Did not meet - 12% - two students did not take any of the quizzes and one student only took one quiz

Crim.210

Did not meet - 1% - student did not take two of the three exams

Crim.309
Met - 64%
Partially met - 10%
Did not meet - 26% - 7 students did not take the quiz

Comments/Narrative

This is the last academic year Crim.309 will be used in the Criminology assessment - this course has been dropped from the curriculum. There are major changes being proposed for AY 2022-2023. The new course - Crim.399 will be a combination of Crim.309 and Crim.403. The new course will continue to use quizzes for the assessment.

AY 2021 - 2022 There was an issue with students not taking the Crim.309 online quizzes in the previous year. This was changed to have students take the quizzes in class. The students that did not take the quizzes were absent from class when the quiz was administered.

Crim.210 examinations continue to remain extremely high - changes are not needed.

The outcomes from this assessment data are at first glance disturbing. Upon further analysis having this assessment placed on-line was a poor choice. It was thought by allowing students to complete the on-line multiple-choice quizzes students would not feel rushed to complete the quizzes and they could take the quizzes at their convenience. By having weekly quizzes, it was thought, it would be easier to determine areas that required additional reinforcement. Many quizzes were not taken. Two students in the "Met" category took 15 quizzes, the other three students completed all the quizzes. No students were in the "Partially met" category. In the "Did not meet" category one student only completed fourteen quizzes with a 57.5% combined total score, one student completed eleven quizzes, one student completed nine quizzes and one student completed seven quizzes. It is unclear using this data if students have a solid knowledge base of understanding of concepts, processes and institutions in the criminology program.

AY2020-2021 - there was still an issue with students in Crim.309 not taking on-line quizzes and in Crim.210 on-line examinations. The number of on-line quizzes dropped in this reporting period due to having examinations and other assignments placed on-line due to the pandemic.

Proposed changes for AY 2021-2022: Encourage students to participate in on-line examinations and quizzes. Attempt to have more face-to-face examinations and quizzes (as absences due to the pandemic allow).

Resources Needed to Meet/Sustain Results

No outside resources needed at this time.

Explanation of How Resources Will Be Used

Outcome 3

Outcomes are specific, **measurable** statements that reflect the broader goals.

Academic Programs are required to develop **Student Learning Outcomes**, which describe knowledge, skills, and values that students are expected to gain as a result of their educational experiences.

Academic Programs may also develop **Operational Outcomes**, which describe the level of performance of an operational aspect of a program or office (ex. graduation rates, retention, employment data).

Most goals have at least two outcomes measured.

Crim.371
Met - 89%
Partially met - 0%
Not met - 11% - one student completed one blog post and one student completed two blog posts out of four

Comments/Narrative

AY 2021- 2022: Changing the quizzes in Crim.309 from online to in class quizzes raised the participation which raised the met category. This is the last assessment of Crim.309 due to major changes in the Criminology curriculum being proposed for AY 2022-2023. The new course Crim.399 will be a combination of Crim.309 and Crim.403. Quizzes will still be used for this assessment.

Crim.371 results dropped during this academic year. In the Partially Met category two students completed both assignments however, they did not follow directions for the assignments. In the Did not meet category six students had not completed one or more of the assignments.

There is still an issue with students not completing online assignments - adding notifications through the Calendar section in Blackboard may help address this issue.

AY 2020-2021: Combining the results from these two courses (Crim.309 and Crim.371) lowered the assessment from Met to Partially Met. Results for these two courses is disturbing, both courses had a lack of participation. Students will be reminded in class and through Blackboard announcements to increase participation in the quiz.

AY 2019-2020: The number of students not taking the on-line quizzes is still disturbing. However, the students taking the on-line quiz is still over 50% of students having acquired knowledge from 100 and 200-level courses. Continue to encourage students to take the on-line quiz.

Resources Needed to Meet/Sustain Results

Explanation of How Resources Will Be Used

Outcome 4

Outcomes are specific, **measurable** statements that reflect the broader goals.

Academic Programs are required to develop **Student Learning Outcomes**, which describe knowledge, skills, and values that students are expected to gain as a result of their educational experiences.

Academic Programs may also develop **Operational Outcomes**, which describe the level of performance of an operational aspect of a program or office (ex. graduation rates, retention, employment data).

Most goals have at least two outcomes measured.

quizzes with a total of 64% and two students missed two quizzes for a combination of 61%
Did not meet - 22% - three students completed six quizzes, one student completed five quizzes, and one student completed four quizzes

Crim.309

Met - 67%

Partially met - 13% - one students missed one quiz
Did not meet - 20% - 1 student only took one quiz,
3 students did not take two quizzes, 2 students did not take three quizzes

Comments/Narrative

AY 21-22 Crim.309 had increase participation in students taking the quizzes in class. Taking the quizzes in class before a lecture increased understanding of material in the lecture which increased class discussion.

This is the last reporting for Crim.309 due to proposed curriculum changes for 2022-2023. The new course Crim.399 will be a combination of Crim.309 and Crim.403. Quizzes will still be used for this assessment.

Crim.210 also had increased participation with students taking online quizzes. Continue to use verbal reinforcement prior to quiz date to encourage students to take the quiz..

AY 20-21 On-line quizzes were used during this reporting period with two changes: 1). the quizzes were part of the textbook online package and 2). a verbal reinforcement was provided prior to encourage students to take the quiz. Each quiz was taken at the start of a new chapter. By having the student take the quiz after reading the chapter and before faculty lectured on the chapter, the students were able to understand the material.

AY 2021-2022: Continue proposed above for following year.

AY 2021-2022: There is a benefit for students to read the chapter material prior to having a lecture and discussion on the required material. These chapter quizzes will continue to be used.

AY 2021-2022: There is a benefit for students to read the chapter material prior to having a lecture and discussion on the required material. These chapter quizzes will continue to be used. However, many students in both of these courses failed to take all of the on-line quizzes. Students will be encouraged in face-to-face classes to take the quizzes and reminders will be placed in on-line courses to take the quizzes.

Resources Needed to Meet/Sustain Results

Explanation of How Resources Will Be Used

Goal Summary

Goal Summary/Comments

It was important to include both semesters of MFT results to determine issues that were identified for the first time in Fall 2018. This was the first time there was enough data to use the "Item Information Report".

Using the "Item Information Report" several categories on the MFT were identified as troublesome. The questions in the categories of Community Policing, Corrections, and Constitution Law were below the national 70%.

Changes Made/Proposed Related to Goal

AY 21-22: The MFT results will continue to be used to address areas where students struggle. These areas will continue to be reinforced in ALL courses, introduced in the 100 and 200-level courses and reinforced in the 300-level courses and add discussion of some issues in Crim.499 through readings and discussions.

Crim.309 (along with Crim.403) is being deleted from the curriculum for AY 22-23 to combined into a new course Crim.399 (this course will include all the theory from Crim.309 and Crim.403). A new course Crim.307 (Law and Juvenile Justice) will address specific issues related to the law and juveniles, which was a part of Crim.309. A new course Crim.307 (Law and Juvenile Justice) will address specific issues related to the law and juveniles. The Criminology degree is now in two modes - Criminology OL and the traditional in class degree. Crim.399 will be taught every semester - one semester online and one semester face-to-face. This will address the new Criminology OL degree.

Criminology still has a need for adjunct faculty to teach in all course levels of the degree. We will begin to ask adjuncts to add specific information (related from areas identified in the MFT) into their course. The material will depend on what course and what level course they are teaching. We will begin to add standardized items in all courses for assessment.

AY 20-21: To address the issues with the MFT it is proposed information from 100, 200, and 300 level courses will be reinforced in 300 level courses.

To address the issues identified with the multiple-choice quizzes proposed in Crim.309, the number of quizzes will drop to 3 from 16. The total number of multiple-choice questions will drop from 80 to 75 and the quizzes will be given during class. The quizzes will still contain information from 100 and 200 level courses taught by adjunct faculty along with the Pols.300-level courses also taught by adjunct faculty.

AY 2018-2019 there were 8 online quizzes for students to complete. Due to the amount of information students needed to be exposed to the quizzes remained online instead of being given during class time. The textbook packet contained the quizzes. The results were all above 70% with the lowest three quiz totals being 85%. This high percentage looks good but, there is a concern of taking the quizzes with an open book.

AY 2019-2020 an exam will be given after mid-term. The quiz will be timed and online and will count as bonus points. Students tend to forget to take quizzes online, so by giving the quiz after mid-term it can be used as an incentive to take and increase their grade in the course.

AY 2020-2021 students are still failing to take the on-line quiz. Continue encouraging students to take the quiz. The addition of one full-time faculty member will address material found in Corrections. Community Policing and Constitutional Law are still being taught by adjunct faculty. Full-time faculty members will need to add information from these courses into the core classes they teach.

Upload Rubrics/Other Files

Goal 2

Program Goals are broad and overarching statements about the skills, knowledge, and dispositions students are expected to gain by the end of their course of study (big picture). They support the Institution's Mission/Goals.

Program Goal

Partially met - 0%

Did not meet - 20% - two students only completed one peer reviewed journal article examination

Crim.371

Met - 86%

Partially met - 4% - one student did not complete both assignments

Did not meet - 10% - 2 students did not complete either assignment

Crim.371 - blog post

Met - 89%

Partially met - 0%

Not met - 11%

Crim.403

Met - 100%

Partially met - 0%

Not met - 0%

Comments/Narrative

AY 2021-2022: This is the last assessment for Crim.403 - this course is discontinued after this AY - the new course Crim.399 will replace BOTH Crim.309 and Crim.403. The new course Crim.399 will be a combination of Crim.309 and Crim.403. Peer-reviewed journal article summaries will be continued in the new course to assess critical thinking skills.

AY 2020-2021 There was measurable increase in the change proposed from last report (AY 2019-2020). Having students read and analyze peer-reviewed journal articles, discuss them in class, and have essay questions on examinations has been successful. Students exhibited critical thinking skills using this method. Continue in the future.

It will continue to be important to remind students to complete assignments through face-to-face interaction (when possible) and/or notices in Blackboard.

In AY 2019-2020 - a new data collection tool was to be used - group debates (pro and con sides) related to a subcategory of criminology. However, due to the pandemic and the campus closing another form of evaluation had to be developed. The students had been analyzing peer-reviewed journal articles of several subcategories of criminology. The questions they presented from the peer-reviewed journal articles became the two essay examinations for the course.

In the previous assessment year (AY 2018-2019) all students met the performance target.

Two theory courses are in place to scaffold criminology theory. The ability for students taking two courses addressing criminology theory (Crim.309 - Juvenile Delinquency and Crim.403 - Criminology theory) appears to benefit student's critical thinking skills. Crim.309 - Juvenile Delinquency introduces criminology theory while Crim.403 expands these theories into current applications.

Comments/Narrative

AY 2021 - 2022

The assessment of Crim.350 was a mid-term assessment due to adjunct faculty not having a blog or having an essay assigned.

In AY 2020-2021 Crim.350 (Ethics in Criminal Justice) was added to the assessment. The second blog writing assignment increased the percentage of Not Met due to students failing to complete the assignment. Crim.390 (Current Policies in Criminal Justice) also had an increase in Not Met due to students failing to complete the last peer-reviewed journal article assignment.

Proposed increased reminders in Blackboard and face-to-face classes (when possible) for upcoming assignments. The persuasive essay will be added to Crim.390 in AY 2021-2022 if face-to-face classes resume.

In AY 2019-2020 the project outline was broken down into 3 separate sections for submission and grading. The final piece was a final persuasive essay. These peer-reviewed journal articles are the first step in scaffolding information and critical thinking skills to develop the final product - a persuasive essay.

In AY 2017 - 2018 it was proposed that a written assignment from Crim.350 (Ethics in Criminology) was to be used to assess critical thinking skills. Due to faculty staffing shortages, it was not appropriate to use Crim.350 in the assessment. To provide a second assessment tool for critical thinking skills, Crim.390 (Current Policy in Criminology) was used for assessment. This assignment is the outline for students to expand into a fully developed essay.

Resources Needed to Meet/Sustain Results

Explanation of How Resources Will Be Used

Outcome 3

Outcomes are specific, **measurable** statements that reflect the broader goals.

Academic Programs are required to develop **Student Learning Outcomes**, which describe knowledge, skills, and values that students are expected to gain as a result of their educational experiences.

Academic Programs may also develop **Operational Outcomes**, which describe the level of performance of an operational aspect of a program or office (ex. graduation rates, retention, employment data).

Most goals have at least two outcomes measured.

What type of Outcome would you like to add?

Student Learning Outcome

Enter Outcome

Students will begin to develop critical thinking and writing skills by preparing a news article summary and connecting the material in the news article with a criminological theory or concept being discussed in the classroom.

Timeframe for this Outcome

AY 2020-2021

Performance Target for "Met"

Percentage of students who receive at least 70% on the average of the first and last news article writing assignment in Crim.101.

Performance Target for "Partially Met"

Percentage of students who receive less than 70% but more than 60% on the average of the first and last news article writing assignment in Crim.101.

Performance Target for "Not Met"

Percentage of students who receive less than 60% on the average of the first and last news article writing assignment in Crim.101.

Assessment Measure Used

The first and last news article writing assignment for two Crim.101 sections.

Frequency of Assessment

Spring 2021

Data Collected for this Timeframe (Results)

AY 2021-2022

First news article

Met - 70%

Partially met - 6%

Did not meet - 24% - 8 students did not complete the assignment

Second news article

Met - 56%

Partially met - 21%

Did not meet - 21%- 7 students did not complete the assignment

AY 2020-2021

First news article

Met - 34%

Partially Met - 34%

Not Met - 32% 16 students did not submit the assignment

Second news article

Met - 37%

Partially Met - 41%

Not met - 22% - this represents the 13 students that did not submit the assignment

Comments/Narrative

In AY 2021-2022 The submission rates for the two written assignments went up this AY, However, there is still an issue with students not completing assignments. Verbal encouragement will continue to be used in face-to-face classes and weekly announcements of upcoming assignments will be given in online courses.

In AY 2020-2021 the Not met category contained all but two students that did not submit both

assignments. A third of the students that submitted both assignments Met the goal while a second third of the assignments Partially Met the assessment goals.

Proposed change - this was a challenging year to teach criminal justice definitions, concepts, and theories due to changes in the presentation of materials. Many students were in and out of class due to the pandemic and virtual classes. This year's assessment cannot be used to compare with previous years due to the unusual conditions,

Resources Needed to Meet/Sustain Results

Explanation of How Resources Will Be Used

Goal Summary

Goal Summary/Comments

Both of these critical thinking skills assessment tools were designed to scaffold material, concepts, and additional information for students to translate into an application.

Changes Made/Proposed Related to Goal

AY 2021-2022 There are still numerous students who do not submit assignments. This issue is especially noted in the 100-level courses writing assignments. Missing assignments has a negative impact on the student's grade but also has a negative impact on student's building their knowledge foundation for future courses. In the 300-level courses annotated peer-reviewed journal articles were summarized and abstracts were added to the final essay grade.

AY 2020-2021: Scaffolding of material and concepts in lower-level courses (100, 200, and 300-level) through writing assignments. In 100-level course a summary of a news article connecting to a criminological concept. In the 200-level courses the writing assignment will be an observation connecting with a criminological concept. In the 300-level course annotated summaries, introductions, and abstracts will be added to writing assignments.

AY 2020-2021 300-level courses did not add annotated summaries, introductions or abstracts to writing assignments. Students had a difficult time understanding these skills in a face-to-face course. These skills were not added to writing assignments during the complicated teaching parameters of this year.

Upload Rubrics/Other Files

Goal 3

Program Goals are broad and overarching statements about the skills, knowledge, and dispositions students are expected to gain by the end of their course of study (big picture). They support the Institution's Mission/Goals.

Program Goal

Students will demonstrate written and oral communication skills.

Pillar of Success Supported

High-Demand, Market-Driven Programs

Outcomes

Outcome 1

Outcomes are specific, **measurable** statements that reflect the broader goals.

Academic Programs are required to develop **Student Learning Outcomes**, which describe knowledge, skills, and values that students are expected to gain as a result of their educational experiences.

Academic Programs may also develop **Operational Outcomes**, which describe the level of performance of an operational aspect of a program or office (ex. graduation rates, retention, employment data).

Most goals have at least two outcomes measured.

What type of Outcome would you like to add?

Student Learning Outcome

Enter Outcome

In AY 2021-2022 -Students in Crim.499 wrote a paper on their personal strengths and weaknesses to prepare for their careers (written communication). The Crim.499 class was divided into groups based on their desired careers to develop a professional developmental game. Each group made a copy of their game for the other groups. They introduced the game and explained the instructions to play the game and how to win the game. Crim.409 (Independent Research final power point presentation (oral presentation))

Percentage of students demonstrating communication skills through an oral presentation of their independent research paper.

In AY 2020-2021- independent research project were not completed due to changes in Crim.490. Students are no longer required to complete independent research project due to Independent Research being a course students can register to attend. Crim.490 (Criminology Internship) had to be redesigned due to the pandemic, internship placements were not taking interns due to the pandemic.

This category will be redesigned in AY 2021-2022 using Crim.499 No assessment could be done on this outcome due to the pandemic.

Timeframe for this Outcome

AY 2021-2022

Performance Target for "Met"

The percentage of students will receive at least 70% on the presentation of their professional development game (Crim.499) and their independent research project (Crim.409).

Performance Target for "Partially Met"

The percentage of students will receive at least 60% but less than 70% on the presentation of their professional development game (Crim.499) and their independent research project (Crim.409).

Performance Target for "Not Met"

The percentage of students will receive less than 60% on the presentation of their professional development game (Crim.499) and their independent research project (Crim.409).

Comments/Narrative

In 2021-2022 Crim.499 students were able to research the academic and professional development issues needed to prepare for entry into their chosen profession and the academic and additional job skills they will need for promotions in their career. They then applied that information into a game format providing instructions to the other groups to participate in the game. Crim.409 students completed power point slides on their independent research project.

In AY 2020-2021 the pandemic made power point presentation not possible. Power point presentations will be resumed when the pandemic permits.

AY 2019-2020 All but one student completed the power point presentation in front of their cohorts. The one student was not able to present due to a family emergency.

In AY 2017 - 2018 the assessment tool used was a powerpoint presentation from Crim.309 (Juvenile Delinquency). Additional assignments are being used in this assessment report. Due to the number of assignments being used from Crim.309 in this report, using Crim.490 (Criminology Internship) will expand the number of courses being used to assess the Criminology discipline. The same assessment tool used in Crim.309 is the same assessment tool being used in Crim.490.

Resources Needed to Meet/Sustain Results

Crim.390 first discussion post
Met - 41%
Partially met - 0%
Not met - 54% - one student's discussion post actually did not meet - 12 students did not complete a discussion post

Comments/Narrative

AY 2021-2022

Crim.350 was an online course and there were numerous students who did not submit the second discussion post. Posting an announcement of the week's upcoming assignments may be helpful to increase student submissions.

Crim.309 Students completed an essay outline which was graded several weeks prior to submission of the final essay. The graded essay outline appears to assist the students in determining lacking information for their final essay. The use of a graded outline for the final essay will be continued. This will be the last assessment using Crim.309 - the essay assignment will be moved to Crim.399 course for the next semester.

AY 2020-2021

Students had difficulty completing three essay assignments with a 70% or better - the same percentages of students met and partially met the assessment goal. Project outlines for essay assignments scores in Crim.390 all met 70% so the bridge between the essay outline and the final product (essay) needs to be strengthened. An additional persuasive essay will be placed in Crim.309.

Using the data from AY 2018-2019 half of the students met and half of the students partially met this goal. The criminology department is focusing on scaffolding writing skills, as well as critical thinking skills and the above assessment measure only partially met this goal. The concern for having the students compose three essays without adequate scaffolding preparation will be adjusted in AY 2019-2020.

In AY 2019-2020 this assignment was broken into separate steps. The first step is to critically analyze a peer-reviewed journal article - step two to critically analyze three pro and three con articles - the final step is to prepare a persuasive essay. One student did not submit the persuasive essay assignment.

In AY 2020-2021 By adding Crim.390 to Crim.350 student assessment scores dropped from Met to

Partially Met. The first discussion post for both courses had numerous student's failure to post on the discussion board. Students participation in assignments at the beginning of the semester pose several questions: 1) Did the students fail to remember the assignment due date? or 2) Did the complicated semester, due to the pandemic, overwhelm the students which created a lack of participation?

Comments/Narrative

In AY 2021-2022 - The courses for assessment were changed from previous years due to the increase in course options for students. The skills for these courses are the same as previous courses. Crim.371 is an elective course requiring clear writing skills of criminogenic concepts, as is Crim.390. Crim.271 (Research Methods) is proposed as a core course in AY 2022-2023. It was used during this assessment year to establish a base-line.

In AY 2020-2021 - The quality of the student's last discussion post increased in postings for Crim.390 but decreased in Crim.350. It is unclear what caused the altering of not submitted discussion posts. Reminders on Blackboard for on-line courses and verbal reminders in face-to-face classes should help to increase participation in assignments.

In AY 2019-2020 article summaries were added into the curriculum to provide students a scaffolding assignment for a final assignment. By giving students the opportunity to provide three pro and three con summaries toward a final persuasive essay assignment. Breaking the final assignment into several pieces (which this assignment was) assisted students in critical thinking skills yet the assignment was

not so overwhelming students became lost.

Resources Needed to Meet/Sustain Results

Explanation of How Resources Will Be Used

Goal Summary

Goal Summary/Comments

AY 2021-2022 - Writing skills are critical in all criminology courses and careers. Writing skills continue to be assessed while scaffolding from the 100-level course through the 400-level courses. Writing skills will continue to be reinforced through all criminology courses.

AY 2020-2021

Students do well with oral communication skills, this appears to be the result of presenting material in the 200 and 300-level courses within the discipline. This scaffolding appears to be a necessary component for oral communication. Writing skills for persuasive essays need to be reinforced. Students do well in developing an outline however, expanding the outline to a complete essay needs to be practiced and reinforced in additional courses.

In AY 2020-2021 - Assignments had to be altered due to the pandemic. Considering all the changes both faculty and students were dealing with during the Spring semester, students worked hard to learn the material being presented. Student participation in on-line assignments varied from course to course and semester to semester. Faculty will encourage students to participate in on-line assignments and provide reminders in Blackboard.

Changes Made/Proposed Related to Goal

In AY 2021-2022 - Writing assignments should be assessed through in all course levels. All the writing assignments use scaffolding of critical thinking skills to complete the assignments.

In AY 2020-2021 essay writing in Crim.403 is being moved to Goal 4

In AY 2019-2020 short essays will be included in Crim.403 (Criminology) in chapter exams. This will give students additional opportunities to use concepts and information to answer questions in a short essay format. Although students met the writing goal for an essay outline the essay part on an examination will assist students in completing concepts and thoughts to answer the larger question or support their response. The goal is for continued practice using an essay format will help reinforce what information to present in a longer essay format.

Upload Rubrics/Other Files

Goal 4

Program Goals are broad and overarching statements about the skills, knowledge, and dispositions students are expected to gain by the end of their course of study (big picture). They support the Institution's Mission/Goals.

Program Goal

Students will demonstrate the ability to apply criminological concepts and theories.

Pillar of Success Supported

Outcomes

Outcome 1

Outcomes are specific, **measurable** statements that reflect the broader goals.

Academic Programs are required to develop **Student Learning Outcomes**, which describe knowledge, skills, and values that students are expected to gain as a result of their educational experiences.

Comments/Narrative

In AY 2021-2022 - Crim.499 Since moving the course to focus on career development and the application of academic knowledge of the discipline into the application of searching for entry level careers and the development of a cover letter for a specific job opening and the cover letter stressing the skills they possess to meet the job qualifications.

In AY 2020-2021 - Crim.390 was not used in this goal assessment due to the number of changes that were made due to required changes because of the pandemic. Three students failed to post on the discussion board in Fall 2020 - all students completed the discussion post in Spring 2021. Students were reminded to submit to the discussion board prior to the due date.

AY 2019 - 2020 there were two students that did not meet this goal. These two students struggled completing assignment and submitting assignments. The goal is to increase the "Met" score to 100%. Continue breaking down parts of the final paper (annotated article summaries, introduction, conclusion) into an additional course - Crim.390 (Current Policies in Criminology).

Comments/Narrative

In AY 2021-2022 Students demonstrated the ability to use criminological concepts in four discussion assignments. There is still an issue with students not following or completing assignments. Continued verbal encouragement and reminders how to complete and submit required assignments in face-to-face classes and announcements posted in Blackboard for online classes.

In AY 2020-2021 Crim.210 discussion posts were used to assess criminological concepts and theories in lower level courses.

All students who met the 70% marker responded to all three discussion modules and responded to at least two cohorts in all three modules. There were two students who partially met the marker, these students answered only two discussion modules and responded to at least two cohorts for the two discussion modules. There were three students who did not meet the 70% marker were lacking in their responses to cohorts and/or failed to respond to all three modules.

Comments/Narrative

In AY 2021-2022 Crim.403 scores increased on the take home exams. More time was spent discussing specific criminological theories, going more in-depth, and providing more options of the questions to answer on the exams. This is the last assessment for Crim.403 - this course is being discontinued. The new course Crim.399 is being proposed to begin 2022-2023.

In AY 2020-2021 Crim.403 take home exams which focused on essay questions. More time should be spend to break down information to increase student's understanding of the material.

Resources Needed to Meet/Sustain Results**Explanation of How Resources Will Be Used**

Goal Summary

Goal Summary/Comments

In 2021-2022 Students that are submitting assignments are understanding and apply concepts and theories of criminology. Unfortunately, there are students that are not following instructions or not submitting assignments. The Criminology degree is now in two modules all of the core classes and numerous electives will be offered both online and face-to-face. It is becoming important to determine the most effective way to encourage students to submit assignments.

In AY 2020-2021 many goals had to be adjusted to accommodate data from additional full-time faculty and dealing with restraints due to the pandemic.

For the first goal was 88% "met" during the AY 2017-2018 summary, this has increased to 91.6% during this assessment. The second goal had 93% "met" during AY 2017-2018 summary, this decreased to 50% during this assessment.

Changes Made/Proposed Related to Goal

In AY 2021-2022 Changes in the courses being assessed due to faculty changes and the addition of the degree in two modules. The data seems to indicate missing assignment submission critically needs improvement. Posting announcements in Blackboard and reminding students in class on upcoming assignments appears successful in several courses. This should be increased in all courses.

In AY 2020-2021 Crim.490 (Criminology Interns) had to be restructured due to the pandemic and few internships in the community. Crim.499 (Criminology Capstone) has been restructured due to Independent Research being a separate course students may register to take. Crim.499 now focuses on professional development and careers.

In AY 2019-2020 the course being used for the assessment summary will be Crim.499 (Criminology Capstone) instead of Crim.490 (Criminology Internship). In AY 2019-2020 Crim.490 (Criminology Internship) is now a Pass/Fail course without a final research paper. In AY 2019-2020 Crim.499 (Criminology Capstone) will have an independent research paper and this paper will be used for the assessment of applying criminological concepts and theories. Students will be encouraged in Crim.499 (Criminology Capstone) class to complete the discussion modules.

Goal 5

Program Goals are broad and overarching statements about the skills, knowledge, and dispositions students are expected to gain by the end of their course of study (big picture). They support the Institution's Mission/Goals.

Program Goal

To comply with Program Productivity Standards as defined by the South Carolina Commission on Higher Education.

Pillar of Success Supported

High-Demand, Market-Driven Programs

Outcomes

Outcome 1

Outcomes are specific, **measurable** statements that reflect the broader goals.

Academic Programs are required to develop **Student Learning Outcomes**, which describe knowledge, skills, and values that students are expected to gain as a result of their educational experiences.

Academic Programs may also develop **Operational Outcomes**, which describe the level of performance of an operational aspect of a program or office (ex. graduation rates, retention,

employment data).

Most goals have at least two outcomes measured.

Major enrollment

Timeframe for this Outcome

AY 2021-2022

Performance Target for "Met"

Using a five-year rolling average, the number of students enrolled in the major for Baccalaureate programs is greater than or equal to 16.8.

Performance Target for "Partially Met"

Using a five-year rolling average, the number of students enrolled in the major for Baccalaureate programs is less than 16.8

Performance Target for "Not Met"

Using a five-year rolling average, the number of students enrolled in the major for Baccalaureate programs is less than 16.8

Assessment Measure Used

South Carolina Commission on Higher Education Management Information System (CHEMIS), the Commission's academic Degree Program Inventory, Lander University Fact Book
