

Academic Program Assessment Report

Assessment is a term commonly used to encompass the process of gathering and using evidence to guide improvements.

SACSCOC requires that an institution "identifies expected outcomes, assesses the extent to which it achieves these outcomes, and provides evidence of seeking improvement based on analysis of the results".

Program Goal

Goal

Goal 1

Program Goals are broad and overarching statements about the skills, knowledge, and dispositions students are expected to gain by the end of their course of study (big picture). They support the Institution's Mission/Goals.

Program Goal

History students will graduate with the skills to conduct historical reasoning.

Pillar of Success Supported

High-Demand, Market-Driven Programs

Outcomes

Outcome 1

Outcomes are specific, **measurable** statements that reflect the broader goals.

Academic Programs are required to develop **Student Learning Outcomes**, which describe knowledge, skills, and values that students are expected to gain as a result of their educational experiences.

Academic Programs may also develop **Operational Outcomes**, which describe the level of performance of an operational aspect of a program or office (ex. graduation rates, retention, employment data).

Most goals have at least two outcomes measured.

What type of Outcome would you like to add?

Student Learning Outcome

Enter Outcome

History students will demonstrate the ability to critically evaluate secondary sources.

Timeframe for this Outcome

Academic Year 2021-2023

Performance Target for "Met"

Average score between 7 and 12 on the book review rubric. (7-9 = At Standard and 10-12 = Exceeds Standard)

Performance Target for "Partially Met"

Average score between 3 and 6 on the book review rubric. (3-6 = Developing)

Performance Target for "Not Met"

Average score of 2 or below on the book review rubric. (0-2 = Needs Attention)

Assessment Measure Used

HIST 201 The Historian's Craft is one of two core courses in the History major. The capstone assignment in this course is a book review, designed to measure students' ability to summarize and analyze a secondary source (in this case, a book). To assess students' ability to critically evaluate secondary sources, department faculty score students' book reviews based on six criteria that are critical to demonstrating historical reasoning. These categories include: Quality of Student Writing, Organization, Content Knowledge, Analysis of the Book's Argument, Analysis of the Writing, and the students' Conclusion.

Frequency of Assessment

Every semester that HIST 201 is taught, typically each fall semester.

Data Collected for this Timeframe (Results)

For the 17 students who completed HIST 201 in the Fall 2020.

Quality of Student Writing:	9.67
Organization:	9.25
Content Knowledge:	9.23
Analysis of the Book's Argument:	8.94
Analysis of the Book's Writing:	9.11
Conclusion:	9.52
Overall Average:	9.28

Score (Met=3, Partially Met=2, Not Met=1)

3

Overall Scores:

Met (7 - 12):	17 students
Partially Met (3-6):	0 Students
Not Met (0-2):	0 Student

Comments/Narrative

With an average score of 9.28/12, the student cohort's performance on the Book Review Met performance expectations in 2021-2022. The data indicates that students performed best in the category related to Quality of Student Writing. Student scores ranged from 7 to 12. Similar to last year, the weakest category was Analysis of the Book's Writing: "Evaluates the book's written style and organization and identifies the book's target audience." However, the cohort averaged nearly 1.5 points higher than last year. This year the average was 8.94.

Resources Needed to Meet/Sustain Results

Explanation of How Resources Will Be Used

n/a

Outcome 2

Outcomes are specific, **measurable** statements that reflect the broader goals.

Academic Programs are required to develop **Student Learning Outcomes**, which describe knowledge, skills, and values that students are expected to gain as a result of their educational experiences.

Academic Programs may also develop **Operational Outcomes**, which describe the level of performance of an operational aspect of a program or office (ex. graduation rates, retention, employment data).

Most goals have at least two outcomes measured.

What type of Outcome would you like to add?

Student Learning Outcome

Enter Outcome

History students will demonstrate the ability to evaluate a primary source.

Timeframe for this Outcome

Academic Year 2021-2023

Performance Target for "Met"

Average score between 7 and 12 on the primary source rubric. (7-9 = At Standard and 10-12 = Exceeds Standard)

Performance Target for "Partially Met"

Average score between 3 and 6 on the primary source rubric. (3-6 = Developing)

Performance Target for "Not Met"

Average score of 2 or below on the primary source rubric. (0-2 = Needs Attention)

Assessment Measure Used

The department assesses this goal in HIST 201, Students are assessed on their ability to evaluate primary sources, a skill that is necessary in historical research and writing. The assessment requires students address the following:
Sourcing: What is the author's perspective? • Why was it written? • When was it written? • Where was it written? • Is this source reliable?

Frequency of Assessment

Every semester that HIST 201 is taught, typically each Fall semester.

Contextualization: Student answers set the document in correct time and space. Addressing questions such as:

- What do you know about the time period in which

this document was written ?

- What do you need to research in order to better understand this document?

Data Collected for this Timeframe (Results)

Score (Met=3, Partially Met=2, Not Met=1)

Each element of the rubric is scored on a 12-point scale. Scores for the three elements are added together for an Overall score that ranges from 36-0.

Sourcing:	9.52	
Contextualization:	9.64	
Close Analysis:	9.23	
Overall Average		9.47

Overall Scores:

Met (7 - 12):	17 students
Partially Met (3-6):	0 Students
Not Met (0-2):	0 Students

Comments/Narrative

Eighteen students completed the assessment during the Fall 2021 semester. The overall average on the assessment was a 9.47. Thus, this cohort of students earned an overall score of Met. One hundred percent of the cohort earned a score of Met on the Overall Score for the essay.

Evidence demonstrates that this cohort's strongest areas were contextualization 9.64/12 and close sourcing 9.52/12. For the contextualization, 16/18 students earned scores of 8 or above (most earning 9-12 points) and the overall average for this category was still At Standard or above. Thus the cohort earned a Met score for all three categories.

Outcome 3

Outcomes are specific, **measurable** statements that reflect the broader goals.

Academic Programs are required to develop **Student Learning Outcomes**, which describe knowledge, skills, and values that students are expected to gain as a result of their educational experiences.

Academic Programs may also develop **Operational Outcomes**, which describe the level of performance of an operational aspect of a program or office (ex. graduation rates, retention, employment data).

Most goals have at least two outcomes measured.

What type of Outcome would you like to add?

Student Learning Outcome

Enter Outcome

History students will demonstrate the ability to produce an original paper using primary and secondary sources.

Timeframe for this Outcome

2021-2022

Performance Target for "Met"

Average score between 7 and 12 on the Senior Seminar paper rubric.

Performance Target for "Partially Met"

Average score between 4 and 6.99 on the Senior Seminar paper rubric.

Performance Target for "Not Met"

Average score below 4 on the Senior Seminar paper rubric.

Assessment Measure Used

Student success on this goal is measured in the HIST 499 Senior Seminar capstone course, which is offered each fall and spring semester. Students complete their own research and write a 10-15 page research paper and are scored on ten elements that collectively assist the department in assessing students' ability to produce an original paper using primary and secondary sources.

Frequency of Assessment

Every semester that HIST 499 is taught, typically each fall and spring semester.

Data Collected for this Timeframe (Results)

Thesis Statement:
8.38

Factual Accuracy:
10.0

Argumentation:
7.9

Evidence of Analysis: 7.7

Effective Use of Primary Sources: 7.97

Effective Use of Secondary Sources: 7.0

Structure of Paper: 8.84

Grammar and Writing Style: 9.35

Proper Formatting of Footnotes
and Bibliography: 9.14

Conclusion:
8.76

Overall: 8.53

Score (Met=3, Partially Met=2, Not Met=1)

3

Comments/Narrative

During the 2021-2022 academic year, 17 students completed the senior research paper in HIST 499. On a scale of 0-12, this cohort earned an Overall Average of 8.53. The cohort, therefore, Met performance expectations. Students scored strongest on Factual Accuracy, Grammar and Writing Style, and Proper Formatting of Footnotes and Bibliography. The weakest two elements were Evidence of Analysis (7.7) and Effective Use of Secondary Sources (7.0). Five students earned scores of 6.5 or below. This number is similar to 2020-2021 and an area that faculty must address. The Evidence of Analysis category data indicates that six students earned scores of 6 or below with two students earning a 5. This data indicates that students still have difficulty developing and explaining an original or relevant thesis.

A cohort average of 8.53 on the Overall assessment is an improvement over last year, but not significant and the two weakest categories from 2020-2021 did not improve in 2021-2022. Considering that this is the capstone assessment, faculty need to discuss ways to address these categories.

Explanation of How Resources Will Be Used

n/a

Goal Summary

Goal Summary/Comments

Historical Reasoning is a difficult skill to master for most undergraduate students. However, students in the Fall 2021 HIST 201 course demonstrated a strong grasp of the skills related to assessing primary and secondary sources. This result suggests that revisions to the way that the course is taught and the assessment instruments used by the instructor were highly effective and should be replicated in 2022-2023. Data for HIST 499 was less promising and indicates that students are still having difficulty using the skills that they are taught in 200-level and 300-level courses effectively to develop a well-researched, argued, and written original paper. This is concerning because the lower 499 scores are part of a three+ year pattern.

Changes Made/Proposed Related to Goal

It is clear that students need more practice mastering these skills throughout their programs of study. One suggestion that we are discussing is making sure that elements from the HIST 499 scoring rubric are used in all 300-level courses to provide students with more exposure to the scoring elements and more practice addressing them before taking HIST 499.

Clinical Practice: 6
Total Internships, undergraduate teaching assistantship, Clinical Practice in Teaching, and comparable experiences.: 11

Score (Met=3, Partially Met=2, Not Met=1)

2

Overall Percentage: 92%

Comments/Narrative

In 2021-2022, our department graduated 12 students. Of those 12, 11(92%) completed internships, undergraduate research assistantships, or 100+ hours of clinical experience in teaching. Consequently, the department has Met the performance target for this Outcome.

Resources Needed to Meet/Sustain Results

Continued/increased support for faculty research and travel will allow faculty to maintain, build, and advance ties to institutions that may lead to student internship opportunities. Similarly, ensuring that

faculty are able to adequately conduct their own research projects will provide more opportunities for students to work with faculty on those projects.

Explanation of How Resources Will Be Used

Funding for professional development allows faculty members to remain active members of the scholarly community and to remain engaged in such public activities as conferences, consulting work, and local presentations. Members of the department have worked with both local, regional, and national institutions in their professional development, in some cases leading to student internships with those institutions. Faculty have worked with the National Archives in Washington, D.C., the Benjamin Mays Site, the Upcountry Museum in Greenville, SC, the Museum of Greenwood, and Star Fort/Ninety-Six Historic Site, among others. Finally, several students have completed research internships with faculty working on their own books and other research projects.

Outcome 2

Outcomes are specific, **measurable** statements that reflect the broader goals.

Academic Programs are required to develop **Student Learning Outcomes**, which describe knowledge, skills, and values that students are expected to gain as a result of their educational experiences.

4

Graduate School:

3

Total who replied to our efforts to contact them:

7

Comments/Narrative

One hundred percent (100%) of alumni that we were able to contact have full-time employment or are in graduate school. Of the 2021-2022 graduates who are employed, the majority are working fields related to history, public history, or history education.

Resources Needed to Meet/Sustain Results

Funding/support to continue the college Etiquette Dinners, career related training, and to fund alumni events within the department. Expenses for such events will vary according to the nature of the activity - the college Dean is better able to identify the exact cost of the annual Etiquette Dinner. In terms of funding alumni events, we expect these would not be very costly - depending on the nature of food provided, and potentially mileage or other expenses to bring alumni back to campus. I would estimate \$500 for such activities.

Explanation of How Resources Will Be Used

The \$500 estimate includes: \$200 for alumni mileage/travel expenses. While I have several alumni in mind who might return for such activities, there is at least one excellent candidate who lives in the Columbia area. Approximately \$100 for travel and \$100 for one night lodging. The other \$300 would go to cover food at two events, \$150 each.

Goal Summary

Goal Summary/Comments

The department's employment data demonstrates that our history majors are in demand and easily find full-time employment and or are accepted to graduate programs inside and outside the discipline.

Changes Made/Proposed Related to Goal

We were only able to reach 7/15 of our recent graduates. The department has significantly ramped up efforts to connect with alumni. The effort has been effective, but we may need to ensure that recent graduates provide us with up-to-date email addresses.

Frequency of Assessment

Annually

Data Collected for this Timeframe (Results)

The 5-year rolling average enrollment in the History major is 76.2

Score (Met=3, Partially Met=2, Not Met=1)

3

Comments/Narrative

The department's 5-Year rolling average has increased from 77.4 to 77.6. This number ranks the History BS/BA 13th out of 30 BS and or BA programs at Lander. According to the Program Productivity Chart, the History BS/BA's 5-year rolling average is the third highest ranking social science (behind Psychology and Criminology).

Department efforts, over the past academic year, to increase the rolling average included: The department chair contacted potential students who applied to become history majors. Second, the chair worked closely with transfer students and faculty with potential students during their campus tours.

In an effort to see continued growth in our 5-year rolling average, the department faculty will remain engaged in the recruitment and retention of history majors. Considering the significant number of students enrolled in our 100-level courses, see below, we plan to take time to explain to 100-level students what historians do and what students can do with a history degree. Hopefully, this will help students recognize what national data supports: that people who major in history easily find employment in a wide range of professions and that they earn competitive salaries.

Annually

Data Collected for this Timeframe (Results)

The 5-year rolling average of completions in the

Score (Met=3, Partially Met=2, Not Met=1)

3

History major is 15.8.

Comments/Narrative

The data indicates that the 5-Year rolling average of completions has remained well above the minimum. One of the department's strengths is its History Education program which accounts for roughly half of all majors within the department. The ongoing demand for quality social studies teachers has helped our department remain stable in its graduation rates.

As noted in the narrative for Outcome 1, the department plans to keep up its efforts at recruitment of students. We are also working on retention. History retention rates are very strong and past Lander data demonstrates that history majors tend not to change majors and they graduate from our department. Our retention percentage is actually higher than many of the professional programs across campus. However, we want to maintain this successful level. To that end we are offering students opportunities to learn more about internships, employment, and campus engagement. We believe that getting majors together for informational and social occasions will help them feel connected and confident in their degree choice.

Goal Summary

Goal Summary/Comments

Overall the department has Met these goals without difficulty. The department's number of majors has begun to recover. Our Headcount Enrollment increased 78.

The department has also observed a significant jump in the number of students enrolled in our 100-level courses. Thus, our department is serving the needs of a substantial portion of the overall Lander student body. The data provided below demonstrates that this number has once again increased.

Fall 2021

HIST 101	Section = 2	Students = 80
HIST 121	Section = 2	Students = 67
HIST 111	Section = 10	Students = 365
HIST 112	Section = 1	Students = 35
PHIL 102	Section = 1	Students = 30
PHIL 103	Section = 2	Students = 69
RELI 101	Section = 1	Students = 24

Spring 2022

HIST 102	Section = 2	Students = 52
HIST 122	Section = 2	Students = 63
HIST 111	Section = 6	Students = 194
HIST 112	Section = 3	Students = 70
PHIL 102	Section = 2	Students = 60
PHIL 103	Section = 2	Students = 54

2021-2022 Total 100-Level students = 1163
2020-2021 Total 100-Level students = 1092

Increase of 71 students

Changes Made/Proposed Related to Goal

Our faculty plan to continue efforts to increase recruitment by: reaching out to potential majors, offering potential and current majors new programs, and developing new advising tools to help students complete the degree.
